

The Free 2 Learn Grant

Freedom Interiors is an education furniture and classroom design company serving KS & MO, giving back to our community by giving a local school one fully-furnished classroom.

We want to enable educators to engage students and empower teachers to bring their curriculum to its full potential.

We're experts in creating active and modern learning environments and want to share our expertise with one lucky winner of our Free 2 Learn Grant. This is our inaugural year in giving back to our community through this program.

The grant will include a 3-D laser scan of your current classroom that we'll then assess, asking about your needs before designing a fully modern, flexible and collaborative classroom for your students. You can even take a look around in virtual reality at what your space will be like before the new furniture arrives!

THE REALLY IMPORTANT FINE PRINT

- ▶ Receiving this grant is dependent upon agreeing to the above timeline.
- ▶ In order to provide your classroom with this incredible opportunity, both the educator and school administration must be included in the grant process.
- ▶ We cannot at this time offer this opportunity to any school outside of MO or KS.
- ▶ The recipient of the Free to Learn Grant must agree to being a lifetime learning partner of Freedom Interiors.

(This sounds scarier than it is, we just want to be able to show off your classroom to other educators!)
